VENETIIS

M D XLVII

Sapientes omnes, verget ac sanctæ religionis sectatores, cum se totos ad diuinis celebrandis honoribus, Deique maximis seruitutibus bene animati consilire, contentis ac spretis omnibus tam publicis quam priuatis actionibus, quæ ipsorum animos facile ad terrena & fragilia reuocare poterant, quicquid temporis & loci diuinis supererat, id omne seruatiū noui testamenti & euangelice parabole secretis dedere, se quid ex illis multo melius & animæ salubrius consilire quæ ita faceret, ipsi aut queritatis honoribus, aut opibus per omne nefas parandis, aut ad obtinendam veneri & palato, se temere & in sua ipsorum perditione ut deum, ac cecurritibus oculis inspicissent, eos aut nemo est qui dubitet recte & sapienter egisse, si inania, fugacia & terrena bona, pro optimis, perpetuis & celestibus commutarunt, Ac vidi ego ipse multos, quo melius & commodius ea facere possent, patrimonium omne quod satis amplum habebat, ac familiares fortunas abiicere, cognoscetes videlicet non posse se duobus dominis recte & fideliter seruare, quæ in fine, quoue in proposito cum viro ad supremum vitæ spiritum honeste, ac sancte vitæ agere persisterint, eos profecto credendum est ad celestem sedem conuolasse, ubi beati sempiterno quofruant. Imitatores enim verborum & operum suorum diligit, & cōdigno afficit premio summus ille stelliferi coeli & vniuersæ naturæ opifex & regnator altissimus, Horum ego exēplo & laetis admonitus, me ab incunte ætate, & ad nostri saluatoris seruitutem, & hanc sanctissimam religionem consilio cōtuli, ibique precipue studiose atque enixe operam dedi, ut quicquid in ipsius religionis ingressu meum spōte promiserat, id oē diligenter summaque cōstantia præstare. Scit aut in primis dñs nostrorum cordium scrutator, quātum ego pro carnis meæ fragilitate, mūdānis & noxiis irritamentis reluctari & obistere cōtenderim. Delectauit me summo opere musices studiū, eius videlicet quæ hymnos canere, deūque ex cordis intimo sublimi & modulata voce collaudare docet, Necquæ huius discipline partē longē ab hac diuersam & inanem admodum, quæ voluptuosas & lasciuas plerūque captiones tradit, ac imbecilles hominum aīos, ad oē libidinis et turpitudinis genus paulatim deducit, veluti infames scopulos, ab cibis, ac p̄sertim a religiosis & sacerdotibus euicandā censeo. Ego igit in hac de qua loquor sanctissime sciētiæ partē diu multūque versatus, viderandē negligentia potius quæ imperitia, ab huius sciētiæ cupidis plura desiderari, quæ si adessent, imperitorum & rudium animi nō adeo rorquerent, quin etiā ad maiora quærēda audentiores cupidioresque fierent. Hęc cū prævidissem, licet mihi ipsi nequaquam fiderē, inuocato rñ diuini & æterni numinis auxillio, sine quo nihil sane bonū potest initiū fortiri, cupidus ad modū ignaris pro virili mea prodesse, hunc mihi iocundissimū laborē in aliqua eorum quæ necessaria videbant partē cōponēda, libētissime sumpsi. Necquid ego laudis desiderio illectus, sed æternitātū boni amore adductus, feci. quāuis & eorū ingēssit numerus, quod aliorū operibus nōnulla addit, plura adiunxi & corrigiūt, perpetuis sibi oī seculo laudē & gloriā cōpararūt. Est enim nō mediocri laude dignū, quæ passim & incōp̄te adeo sparsa sunt, ut exiguis ex his vel summo labore fructus percipi possit, in ordinem eleuans, cōpendiosē & ad cōmunē oīum vtilitatē redigere, Vtrū ego neque gloriā quærere, neque mihi diuitias cōparare hoc opusculo decreui: absit enim ut huiusmodi i aīum meū serpat ambitio, sed ignaris tantummodo pro meis viribus, fauētē oīpotētis grāa opitulari volui, quo eis liceat facilius diuina oīa rite ac perfecte officia celebrare, neque suis imparibus cōcētibz ac parū modulata voce, & hominū aures offendāt, & ipsi deo fastidio inferāt, cū id quod se ad eius maiestatis honorē facere p̄dicant, magna plerūque negligētia p̄mittant. Hoc igit præsens opus qualecūque sit, quod Antiphonariū appellari placuit: eo quāntiphonas cōtineat, sicut alter ab eo libellus, & cū ipso cōnectendus quē superiore anno missas solēnes cōtineat sub Gradualis noīe, cōpilarū imprimi curauimus, tibi vni Illustrissime & Reuerēdissime princeps, tuorum nō & auspicio in primis dedicare constitui, Tu enim ut video, ceteros ecclesiæ signiferos, & nostri p̄p̄is Apostolos, sanctissima vita circa oēm cuiusque cōtrouerſiā antecellis, verūque dei cultū, et verbo p̄dicas, et opere p̄ficias, Prætereo innumera bilia, a te & iuste & pie facta, in eo quā tibi diuina tradidit, p̄uidētia, regēdo et moderādo imperio. Ita enim in hoc te habet gloria tua, ut nullius fere laudibus crescat, nullius vituperatione minuat, quibus quid ex tebus sit, ut te oēs veluti numē aliq̄d a summa dei clemētia istis felicissimis populis e cœlo demissum fuisse existimēt, neque vero id in te esse mirādū est, Scis enī quid inter bonū & malū principē, scis quid inter pastore et lupū intersit, scis postremo quæ tibi & quāta i cœlo p̄mia sint, p̄posita, si et iustitiā assidue colueris, & scitē viues, ceteris mortalibus exēplo fueris. Benigne igit & hilari vultu nostrū hunc laborē, quicquid sit accipe, cūque ad optimū finē a me & inchoatū & exactū fuisse existima, inde me inter ceteros nostræ religionis in finimū cliētulū totū toto pectore, licet immererē, suscipe, amplectere, & tuere, Ego enim i tuorum numero esse & cōnumerari ut cū maxime desidero, Vale egregie optime: Amplissimum Almo & feliciter Vrbis decus, atque
